Description

The RSAGA project has pretty good documentation on some of the SAGA algorithms. Maybe this could be copied into Processing?

The RSAGA docs can be found on the RSAGA project page:
http://cran.r-project.org/web/packages/RSAGA/

Direct link to PDF with the docs:

Thanks for the pointer. I have checked, and only 46 algs seem to be documented. Furthermore, the docs are in Latex, so they should be converted to rst. Some content is R-specific, so it should be removed.

I think we can close this now. Processing help now part of the QGIS documentation
