QGIS Application - Bug report #11020
freeze when setting offset

2014-08-07 03:37 AM - Damien PERRET

Status:	Closed		
Priority:	Normal		
Assignee:			
Category:	Symbology		
Affected QGIS version:	2.4.0	**Regression?:**	No
Operating System:	Windows	**Easy fix?:**	No
Pull Request or Patch supplied:	No	**Resolution:**	worksforme
Crashes QGIS or corrupts data:	No	**Copied to github as #:**	19360

Description

Qgis 2.4 freezes when setting an offset on graduated styles for single simple line.

Find attached the style exported from version 2.2 that freezes version 2.4. Same thing happen when setting this style from scratch.

Regards

Hi,

Please find attached an example.
On my computer (I7, 32Go RAM) Qgis works ok when I set an offset on 3 of the 5 levels. When adding an offset to the 4th, it gets very slow at redrawing the shape. At the 5th, it freezes.
I hope the attached file helps.

Regards

Is there a place to upload files larger than 5Mo?

#5 - 2014-10-05 09:42 AM - Giovanni Manghi

- Resolution set to worksforme
- Status changed from Feedback to Closed

Tested your style on different datasets on qgis master and it seems to work ok.

Please reopen if necessary adding a sample project with data (if more than 5mb use something like Dropbox or similar). Cheers!
