QGIS Application - Bug report #11050
Graphical modeler cannot process GDAL algorithms

2014-08-14 12:28 AM - Amine Aboufirass

Status:	Closed		
Priority:	Normal		
Assignee:			
Category:			
Affected QGIS version:	2.4.0	**Regression?:**	No
Operating System:		**Easy fix?:**	No
Pull Request or Patch supplied:	No	**Resolution:**	duplicate
Crashes QGIS or corrupts data:	No	**Copied to github as #:**	19386

Description

I have a raster and vector file. I am trying to use the vector as a mask to clip the raster through the GDAL clip raster by mask layer function. When I run the module I get an error.

"Oops the output layers could not be open"

I have uploaded the model and an image capture of the error and log below. Please help.
