History

#1 - 2006-11-10 06:36 AM - lami-faunalia-it -

This is particularly annoying especially because some errors lock the shell, and to proceed one is forced to open a new one (leaving the previous one open).

#2 - 2007-07-21 09:01 PM - Tim Sutton

Changed to minor under the following scheme:
blocker - bugs that should block the release. Since we are going to release pretty much 'come what may' I would like no bugs allocated to this category without consultation with me and / or PSC
critical - bugs that cause the application to crash or corrupt data
major - application features that do not function at all
minor - features that function but imerfectly e.g. labels placing incorrectly
trivial - gui useability issues or small issues with the documentation, install notes etc.

#3 - 2007-11-16 01:55 PM - Martin Dobias

- Resolution set to fixed

- Status changed from Open to Closed

Added in .
