QGIS Application - Bug report #13399
Unable to export image in Print Composer while Render as HTML box is checked

2015-09-22 05:38 PM - Josiah Wahlrab

Status:	Closed		
Priority:	Normal		
Assignee:			
Category:	Map Composer/Printing		
Affected QGIS version:	2.8.2	**Regression?:**	No
Operating System:	OSX	**Easy fix?:**	No
Pull Request or Patch supplied:	No	**Resolution:**	end of life
Crashes QGIS or corrupts data:	No	**Copied to github as #:**	21451

Description

I'm unable to export any type of image (`png`, `pdf`, `svg`, etc.) via Print Composer while there is a **Label** that is set to *Render as HTML*. The normal *Choose a file name to save the map image as* appears for a spit second, but then disappears. The issue persists in both **QGIS 2.8.2** and **QGIS 2.10.1**, both on OS X (10.10.4). If I *uncheck* the *Render as HTML* box, I'm able to export as an image format with no difficulty.
