QGIS Application - Bug report #17071
Opening NMEA files in Qgis

2017-08-25 11:40 AM - Frédéric PONS

Status:	Closed		
Priority:	Normal		
Assignee:			
Category:	Python plugins		
Affected QGIS version:	2.18.12	**Regression?:**	No
Operating System:	Windows 7	**Easy fix?:**	No
Pull Request or Patch supplied:	No	**Resolution:**	up/downstream
Crashes QGIS or corrupts data:	No	**Copied to github as #:**	24970

Description

Hi

Some new NMEA trame provided by smartphone cannot be readed by the plugin GPS in Qgis because GPSBabel version is only 1.4.4. The GPS babel version 1.5.4 (not in plugin Qgis) enables to open these files.

I copy/paste the folder of GPSbabel 1.5.4 in the Qgis\bin folder and all is ok.

If the plugin can be update.

Thanks
Frédéric

- Resolution set to up/downstream

Then it's more a osgeo4w package upgrade problem than a qgis one. If confirmed, please close that ticket and open one here:
