QGIS Application - Bug report #18899
Sorting an attribute table with Actions enabled hides the values in the first column with the Action combo box

2018-05-03 04:22 AM - Alex Mackenzie

Status:	Closed		
Priority:	Normal		
Assignee:	Julien Cabieces		
Category:	Attribute table		
Affected QGIS version:	3.0.2	**Regression?:**	No
Operating System:	Windows 10	**Easy fix?:**	No
Pull Request or Patch supplied:	No	**Resolution:**	fixed/implemented
Crashes QGIS or corrupts data:	No	**Copied to github as #:**	26731

Description

If I enable an Action to 'Show in Attribute Table', Open the Attribute Table and then sort by any column in the table.

The values in the first column are hidden by the Action combo box.

This occurs in versions 3.0.2 and 2.18.14 when I sort by left-clicking a column name or use the right-click Sort... option.

Bug may be related to Bug Report #16014
