QGIS Application - Bug report #14220
Error in rule-based style with different scale/zoom

2016-02-03 02:15 AM - Francisco Collantes

Status:	Closed		
Priority:	Normal		
Assignee:			
Category:	Symbology		
Affected QGIS version:	2.12.1	**Regression?:**	No
Operating System:		**Easy fix?:**	No
Pull Request or Patch supplied:	No	**Resolution:**	not reproducable
Crashes QGIS or corrupts data:	No	**Copied to github as #:**	22220

Description

Hi!

I just found a bug about rule-based style. When I change the zoom at least a point change the expected colour, which depends of a rule based on the value of a field: Green: (POS=0); Red: (POS>0)
