QGIS Application - Bug report #15228
style dock: values of raster's layer rendering options not properly restored

2016-07-06 07:47 PM - Mathieu Pellerin - nIRV

Status:	Closed		
Priority:	High		
Assignee:	Martin Dobias		
Category:	GUI		
Affected QGIS version:	master	**Regression?:**	No
Operating System:		**Easy fix?:**	No
Pull Request or Patch supplied:	No	**Resolution:**	
Crashes QGIS or corrupts data:	No	**Copied to github as #:**	23165

Description

Steps to reproduce:

1. Create a new project
2. Add a raster layer (1-band, 3-band, it doesn't matter)
3. Open the style dock
4. Change the brightness, saturation, and contrast layer rendering values (max out the sliders, it's easier to see)
5. Switch to the transparency tab/panel
6. Go back to symbology tab/panel, notice the layer rendering options' sliders are restored but spinbox values are set to 0

Associated revisions

Revision 612043cd - 2016-07-07 02:01 PM - Martin Dobias

Style dock: properly restore values in spinboxes for brightness etc (fixes #15228)
