QGIS Application - Feature request #2340
Login and password for WMS servers don't deleted when removing connection

2010-01-03 04:01 AM - Alexander Bruy

Status:	Closed		
Priority:	Low		
Assignee:	Marco Hugentobler		
Category:	Web Services clients/WMS		
Pull Request or Patch supplied:		**Resolution:**	fixed
Easy fix?:	No	**Copied to github as #:**	12400

Description

When deleting WMS connection the login and password are not deleted from settings. For reproduce:

- create a new WMS connection and fill all fields including username and password
- look in settings (registry or file). There are two groups in settings:
  Qgis/connections-wms/<connection name> group with server URL and /**Qgis/WMS/<connection name>** group with username and password
- delete this new connection and look in settings again. The /**Qgis/WMS/<connection name>** group with username and password is not deleted
