QGIS Application - Bug report #15528
Incompatible matplotlib and pyparsing on Windows in QGIS 2.16.2

2016-09-02 10:25 AM - Arnaud Morvan

Status:	Closed		
Priority:	Normal		
Assignee:			
Category:	Build/Install		
Affected QGIS version:	2.16.2	**Regression?:**	No
Operating System:	MS Windows	**Easy fix?:**	No
Pull Request or Patch supplied:	No	**Resolution:**	fixed/implemented
Crashes QGIS or corrupts data:	No	**Copied to github as #:**	23452

Description

It seems that the pyparsing version (1.5.2) installed with QGIS 2.16.2 on Windows in :
C:/Programmes/QGIS 2.16/apps/Python27/Lib/sites-packages
is too old for the matplotlib one.
matplotlib says : "matplotlib requires pyparsing >= 1.5.6"

I've installed QGIS from that link : http://qgis.org/downloads/QGIS-OSGeo4W-2.16.2-2-Setup-x86.exe
