QGIS Application - Bug report #16074
Files CSV do not generate point

2017-01-13 05:28 AM - dany Lefeuvre

Status:	Closed		
Priority:	Normal		
Assignee:			
Category:	Data Provider/Delimited Text		
Affected QGIS version:	2.18.2	**Regression?:**	No
Operating System:	Windows	**Easy fix?:**	No
Pull Request or Patch supplied:	No	**Resolution:**	invalid
Crashes QGIS or corrupts data:	No	**Copied to github as #:**	23989

Description

When I create a new layer from CSV files, point is not generated.
The source of layer is :
file:///D:/travail/MATA/AVRANCHESt.csv?encoding=System&type=csv&delimiter=;&decimalPoint=,&xField=X&yField=Y&spatialIndex=es&subsetIndex=no&watchFile=no

In the file PB_layer_propertie, you can see that I can't parametrize style.

History

#1 - 2017-02-27 02:02 PM - Giovanni Manghi

- Priority changed from Severe/Regression to Normal

- Category set to Data Provider/Delimited Text

- Status changed from Open to Feedback

Please attach sample data.

#2 - 2017-02-28 12:31 AM - dany Lefeuvre

- File AVRANCHESt.csv added

Hi, with sample data in EPSG:2154. I try with the last version of LTR and testing, I have the same problem.

#3 - 2017-02-28 11:30 AM - Giovanni Manghi

- Resolution set to invalid

- File Screenshot_20170228_193559.png added

- Status changed from Feedback to Closed

The X/Y values have a space in the middle of numbers that must be striped.
Once you do that the point text layer imports as expected and you have the styling options. See attached image.
