

QGIS Application - Bug report #17358

Draw Effects not saved

2017-10-30 01:52 PM - Jeffrey Bostoan

Status:	Open	
Priority:	Normal	
Assignee:		
Category:	Project Loading/Saving	
Affected QGIS version:	3.4.4	Regression?: No
Operating System:	Win 10 x64	Easy fix?: No
Pull Request or Patch supplied:	No	Resolution:
Crashes QGIS or corrupts data:	No	Copied to github as #: 25255
Description		
<p>I'm using QGIS 2.18.13. Been working on a project for some hours now.</p> <p>I had some project file corruptions - not sure what the issue there is, assuming virtual layers.</p> <p>But here's a bug I can reproduce easily in my current project.</p> <p>I have a virtual layer (currently simply selects all features from a shapefile layer. I'm using this because I want to be able to set a filter on the shapefile layer and have it applied on several layers at once).</p> <p>In this layer, I'm using categorized symbols.</p> <p>The symbol is in fact a Geometry Generator, generating a polygon.</p> <p>Now, whenever I go to Geometry Generator -> Fill -> Simple Fill and set draw effects, they're applied.</p> <p>Same goes for just applying the draw effect on the Geometry Generator.</p> <p>I save the project.</p> <p>I reopen the project.</p> <p>Draw filter is gone, whether I set it on the actual generator or on the fill.</p>		

History

#1 - 2017-10-30 10:13 PM - Giovanni Manghi

- Easy fix? changed from Yes to No
- Category changed from Symbology to Project Loading/Saving

#2 - 2019-01-21 12:34 AM - Jürgen Fischer

- Status changed from Open to Feedback

Please test with QGIS 3.4 - QGIS 2.18 reached it's end of life.

#3 - 2019-02-23 04:52 PM - Alessandro Cristofori

- File style_issue.png added

Bug still present on 3.4.4 (see attached)

#4 - 2019-02-23 10:29 PM - Giovanni Manghi

- Affected QGIS version changed from 2.18.13 to 3.4.4
- Status changed from Feedback to Open
