QGIS Application - Bug report #16579
Date widget: current date can't be picked

2017-05-19 02:47 PM - Andreas Neumann

Status:	Closed		
Priority:	Low		
Assignee:	Denis Rouzaud		
Category:	Edit widget		
Affected QGIS version:	2.18.7	**Regression?:**	No
Operating System:		**Easy fix?:**	No
Pull Request or Patch supplied:	No	**Resolution:**	fixed/implemented
Crashes QGIS or corrupts data:	No	**Copied to github as #:**	24481

Description

If one uses a date widget and wants to pick the current day (which is initially highlighted) one cannot pick the marked date.

In order to pick the current date, one has to first pick a different day, then the date picker closes, and then one can pick the current day.

Seems like there is an event problem with the high-lighted day in the date picker.
