QGIS Application - Bug report #17709
Rule edition window too big for small screen (not resizable)

2017-12-17 10:56 AM - Loïc L'Anton

Status:	Closed		
Priority:	Normal		
Assignee:			
Category:	GUI		
Affected QGIS version:	master	**Regression?:**	Yes
Operating System:	Windows 7 x64	**Easy fix?:**	No
Pull Request or Patch supplied:	No	**Resolution:**	fixed/implemented
Crashes QGIS or corrupts data:	No	**Copied to github as #:**	25606

Description

I'm using QGIS on a 19 inches screen, resolution 1360x766. When I open the rule edition window I'm unable to reach the OK button because that window is taller than my screen. The window is not resizable on the "y axis". The only way I've found to click "OK" is to hide the windows taskbar.
