| **Affected QGIS version:** | master | **Regression?:** | No |
| **Operating System:** | | **Easy fix?:** | No |
| **Pull Request or Patch supplied:** | No | **Resolution:** | fixed/implemented |
| **Crashes QGIS or corrupts data:** | No | **Copied to github as #:** | 26040 |

**Description**

Open the Processing modeler dialog
Double-click any algorithm
From the alg dialog, click the Help button: 404 NOT FOUND
The same alg from the Processing toolbox would/should have opened the right documentation page

Giving a look to the constructed URL, there's a missing "#" character after "html" to get the anchor, hence the "unfound" page (ie, https://docs.qgis.org/testing/en/docs/user_manual/processing_algs/qgis/cartography.htmltopological-coloring instead of https://docs.qgis.org/testing/en/docs/user_manual/processing_algs/qgis/cartography.html#topological-coloring).
