QGIS Application - Bug report #18929
Service url cannot include custom query parameters

2018-05-09 02:12 PM - Lorenzo Pini

Status:	Open		
Priority:	Normal		
Assignee:			
Category:	Web Services clients/WCS		
Affected QGIS version:	3.0.1	**Regression?:**	No
Operating System:		**Easy fix?:**	Yes
Pull Request or Patch supplied:	No	**Resolution:**	
Crashes QGIS or corrupts data:	No	**Copied to github as #:**	26761

Description

Adding new services (WCS, WMS, WFS) the url cannot contain any custom parameter.

If a custom parameter is added, QGIS will use invalid URLs to access the resources.

For example with access_token or mapId query parameters.

http://localhost/server/?access_key=123456789
will result in
http://localhost/server/?access_key=123456789?&SERVICE=WCSx%x%....

QGIS should always generate a valid url to load the layers

History

#1 - 2018-05-11 11:07 AM - Lorenzo Pini

Errata, WMS and WFS are working, the issue is only with WCS.

Tested with 3.0.2 too.
