

QGIS Application - Bug report #19253

Translated 'Raster' and 'Vector' submenus converted to Title Case

2018-06-24 11:43 AM - Asier Sarasua

Status: Closed	
Priority: Normal	
Assignee: QGIS Translation Team	
Category: Translations and international	
Affected QGIS version: master	Regression?: Yes
Operating System:	Easy fix?: No
Pull Request or Patch supplied:	Resolution: fixed/implemented
Crashes QGIS or corrupts data:	Copied to github as #: 27081

Description

In English, menu names are usually in "Title Case", but in other languages it may be different.

In Transifex some strings, when translated, are converted to "Sentence case". However, they appear in "Title Case" in QGIS 3.2.

It happens in "Raster" and "Vector" menus (in fact, in options affected by bug #18202).

Checked in Spanish and Basque.

History

#1 - 2018-11-02 09:34 AM - Borys Jurgiel

- Resolution set to fixed/implemented
- Regression? changed from No to Yes
- Status changed from Open to Closed

Fixed in <https://github.com/qgis/QGIS/pull/8308/commits/88b80394c0>
