QGIS Application - Bug report #2065
'Show selected records only' not refreshing table when using the function "search"

2009-11-08 05:00 AM - Ivan Mincik

Status:	Closed		
Priority:	Low		
Assignee:			
Category:	Map Canvas		
Affected QGIS version:	1.7.3	**Regression?:**	No
Operating System:	All	**Easy fix?:**	No
Pull Request or Patch supplied:	No	**Resolution:**	fixed
Crashes QGIS or corrupts data:	No	**Copied to github as #:**	12125

Description

Record list in attribute table is not refreshing when 'Show selected records only' is enabled and another selection is made.

Try:
1. Select some feature in vector layer.
2. Open attribute table and check 'Show selected records only'. OK, table rows are narrowed to selected features.
3. Select some other features in layer. Rows in the table are not refreshed as expected. You must uncheck a check again 'Show selected records only' checkbox. The same behavior is when using it with 'Search' .

fixed.
Tested in QGis 1.4.0-1 (win32), 1.5.0-13 (osgeo4w).

- Status changed from Closed to Feedback

- Resolution deleted (fixed)

Tested on latest trunk using Debian Lenny 32bit. Qt 4.4.3.

1. When enabled 'Show selected records only' and selecting features in map, table is refreshing correctly.

2. When enabled 'Show selected records only' and using 'Search' widget in table, table is not refreshing until I disable and enable 'Show selected records only' checkbox. Would You please fix also this problem ?

Seems fixed in the lateset qgis-master and qgis 1.7.3

Reopen if necessary.

#5 - 2011-12-27 02:07 AM - Ivan Mincik
- Assignee set to Giovanni Manghi

1. I confirm correct behavior in current master.

2. In 1.7.3, attribute table is not refreshing when using 'Search'. It is only refreshed after re-checking 'Show selected records only'. Selecting features in map canvas is working correctly.

I am missing permissions to reopen ticket !

#6 - 2011-12-27 02:10 AM - Ivan Mincik
- Resolution deleted (worksforme)

#7 - 2011-12-27 02:14 AM - Giovanni Manghi
- Status changed from Closed to Open
- Affected QGIS version changed from master to 1.7.3

#8 - 2011-12-27 11:58 AM - Giovanni Manghi
- Subject changed from 'Show selected records only' not refreshing table at selection change to 'Show selected records only' not refreshing table when using the function "search"

If possible backport the fix also in the 1.7.x branch as it works fine in master.

I think this may be fixed recently in master for "search", and for making a manual selection in the canvas, although I'm not certain, because I couldn't figure out how to reliably reproduce it.
It isn't fixed for manually selecting rows in the attribute table, but I'm not sure if that would be desirable anyway (at least not unless there was the ability to right click on a row and "zoom to extent").
