QGIS Application - Feature request #2447
Output pixel size in Georeferencer

2010-02-16 03:28 PM - Maxim Dubinin

Status:	Closed		
Priority:	Low		
Assignee:	mmassing -		
Category:	Rasters		
Pull Request or Patch supplied:		**Resolution:**	fixed
Easy fix?:	No	**Copied to github as #:**	12507

Description

It would be nice to have ability to set output pixel size for georeferenced rasters.
This can be implemented in the form of a checkbox, if off, default gdal-calculated pixel size is used, if on, user can enter his values.
