

## QGIS Application - Bug report #20306

### Browse button no longer works (greyed out) in Handle Bad Layers Dialog

2018-11-01 02:34 AM - Rob Willson

<b>Status:</b> Closed	
<b>Priority:</b> High	
<b>Assignee:</b>	
<b>Category:</b> Data Source Manager	
<b>Affected QGIS version:</b> 3.4.0	<b>Regression?:</b> Yes
<b>Operating System:</b> Windows 10	<b>Easy fix?:</b> No
<b>Pull Request or Patch supplied:</b> No	<b>Resolution:</b> fixed/implemented
<b>Crashes QGIS or corrupts data:</b> No	<b>Copied to github as #:</b> 28127
<b>Description</b>	
the browse button stays greyed out when you select upper left corner to select all bad layers or one layer at a time. See upload	
This forces you to paste in the path one layer at a time	

#### History

##### #1 - 2018-11-01 04:44 AM - Nyall Dawson

- Resolution set to fixed/implemented
- Status changed from Open to Closed

Already fixed
