QGIS Application - Bug report #8090
Heatmap plugin resets rows and columns whenever I change the radius

Crashes QGIS or corrupts data:	No	**Copied to github as #:**	16927

Description

In the Heatmap plugin, if I change the **Rows** field for a heatmap in the **Advanced** section, which automagically changes **Columns**, too, then if I change the heatmap's **Radius** field, **Rows** and **Columns** get changed back to default values.

Expected behavior: Changes to the **Radius** field do not reset the **Rows** and **Columns** fields.

Associated revisions

Revision 65aa1d5a - 2013-06-26 08:00 PM - Nyall Dawson

Don't reset output size on radius change (fix #8090)

Prevent input of invalid output size by changing to spin boxes for rows and columns
