Description

This is a 'feature' / side effect of the fact that we are using the gitosis plugin for redmine. Currently we have no solution for this. We will update the front page when we figure it out.

History

- Assignee changed from Tim Sutton to Pirmin Kalberer

Pirmin, do you know of any fix for this?

#2 - 2011-06-05 12:32 PM - Pirmin Kalberer

The gitosis plugin seems to show a git(osis) URL even when the project has no local repo. I will look for a patch.

#3 - 2011-06-12 01:02 PM - Pirmin Kalberer

- Status changed from Open to Closed

I've patched the gitosis plugin to show only git URLs for local gitosis repos:
