QGIS Application - Feature request #5012
Add option to repeat labels (for lines vectors) at a given interval

2012-02-14 08:17 AM - Giovanni Manghi

Status:	Closed			
Priority:	Normal			
Assignee:				
Category:	Labelling			
Pull Request or Patch supplied:	No		**Resolution:**	fixed/implemented
Easy fix?:	No		**Copied to github as #:**	14788

Description

Would be very handy, for example Mapserver supports this feature

EPEATDISTANCE [integer]
    The label will be repeated on every line of a multiline shape and will be repeated multiple times along a given line at an interval of REPEATDISTANCE pixels.
    The associated RFC document for this feature is MS RFC 57: Labeling enhancements: ability to repeat labels along a line/multiline.

It would also be good to be able to repeat labels in polygons.
