

QGIS Application - Feature request #7052

Composer navigation should be improved

2013-01-27 04:49 AM - Olivier Dalang

Status: Closed	
Priority: Normal	
Assignee: Nyall Dawson	
Category: Map Composer/Printing	
Pull Request or Patch supplied:	Resolution: fixed/implemented
Easy fix?: No	Copied to github as #: 16139
Description	
<p>Hi !</p> <p>I find it quite frustrating to navigate in the Composer, since it is very different than in the Map Canvas. So one can't rely on his reflexes, which is a problem since it's the same software !</p> <p>In my opinion, it should behave the same way as the main Map Canvas (aka middle-click panning and scrollwheel zooming).</p> <p>It's only when hovering/clicking on a map composer with the "Move item content" that those events shouldnt navigate around the composer.</p> <p>And besides, the composer lacks a normal panning tool.</p>	

History

#1 - 2013-06-04 10:50 PM - Nyall Dawson

- Target version set to Future Release - High Priority
- Assignee set to Nyall Dawson
- Category set to Map Composer/Printing

#2 - 2015-09-29 06:01 PM - Nyall Dawson

- Resolution set to fixed/implemented
- Status changed from Open to Closed

Fixed since a while
