

QGIS Application - Feature request #8844

PDF output option - text as text objects rather than paths

2013-10-14 03:42 PM - James Harvey

Status: Closed	
Priority: Normal	
Assignee:	
Category: Map Composer/Printing	
Pull Request or Patch supplied:	Resolution:
Easy fix?: No	Copied to github as #: 17527
Description	
<p>Would be nice to retain text as text rather than converting to paths and embedding the fonts if possible within PDF's. I am sure that converting text to paths too much is increasing the file size quite a lot on complex maps. It would be good to at least have an output settings screen that allows changes to the type of file output to be made.</p> <p>Having text embedded would allow for better accessibility and searching when viewed in a PDF viewer as well.</p>

Revision 8ea38893 - 2018-12-11 03:28 AM - Nyall Dawson

[layouts][needs-docs] Add a PDF export settings dialog which is shown whenever exporting a layout to PDF

This matches the behavior with SVG and raster exports, and allows users to set specific properties for the export (such as text rendering format)

Fixes #8844
