

QGIS Application - Bug report #10016

Error with outputs caused by specific characters

2014-04-08 02:32 AM - Danny Morck

Status:	Closed	
Priority:	Normal	
Assignee:	Nyall Dawson	
Category:	Map Composer/Printing	
Affected QGIS version:	2.2.0	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:		Resolution:
Crashes QGIS or corrupts data:		Copied to github as #: 18502
Description		
<p>When automatically naming outputs (PDF, images etc.) by Field Calculator and linked to an attributefield, some outputs will not be generated if they include specific characters like /, <, >, ", !, ?, *. This is because you normally arent allowed to name files, folders etc with these characters.</p>

Hello,

If this bugreports concerns the Atlas part of QGIS 2.x, please report the bug in the main QGIS application.

If this concerns the Atlas plugin for QGIS 1.8, please note that it is now deprecated as the feature has been ported to core. It is not maintained any longer.
It is advised to update your QGIS version to benefit from all the improvements incorporated, especially concerning the composer and the Atlas feature.

I'm expecting this report - it concerns the inbuilt feature, but I'm unable to reopen this ticket or change its category to Map Composer. Vincent, are you able to do this?

- Status changed from Rejected to Reopened

Hello Nyall,

I added you as developper and manager of this plugin, and reopened the bug. I can only "move" it to the other projects belonging to me on this platform, and not the QGIS project itself. Maybe you will be able to do so now that I added you as a member.

#4 - 2014-04-08 03:33 AM - Nyal Dawson

- *Project changed from 50 to QGIS Application*
- *Crashes QGIS or corrupts data set to No*
- *Affected QGIS version set to 2.2.0*

#5 - 2014-04-08 03:33 AM - Nyal Dawson

- *Category set to Map Composer/Printing*

#6 - 2014-04-08 03:33 AM - Nyal Dawson

Thanks Vincent!

#7 - 2014-06-26 03:54 AM - Nyal Dawson

- *Status changed from Reopened to Closed*

Fixed in changeset commit:"899c2f8b5dc268ff4cbb111f94968b570159e933".
