QGIS Application - Feature request #10036
lock scale and extents in composer

2014-04-09 05:27 AM - Gavin Fleming

Pull Request or Patch supplied:	No	**Resolution:**	
Easy fix?:	No	**Copied to github as #:**	18517

Description

Sometime one needs to make a map with a specific scale AND a specific extent. And then choose a page size to suit. At the moment you can't change one of these without affecting the other. What would help is a 'lock' tickbox for both scale and extent, in which case the map would dynamically resize as you changed any of the parameters while keeping the other one fixed.

I have been waiting for this feature too.

#2 - 2014-09-11 03:55 AM - Tobias Schneider

This should really make it into the next release. Can somebody give it a "log hanging fruit" tag?
