

QGIS Application - Feature request #10063

Oracle provider should also retrieve materialized views comments

2014-04-14 02:31 AM - Médéric RIBREUX

Status:	Closed	Resolution: Copied to github as #: 18539
Priority:	Normal	
Assignee:	Jürgen Fischer	
Category:	Data Provider/Oracle	
Pull Request or Patch supplied:	No	
Easy fix?:	No	
Description		
<p>Oracle provider is able to retrieve table comment, as shown in the source code, in src/provider/oracle/qgsoracleprovider.cpp .</p> <p>In my Oracle Spatial repository, we use materialized views a lot. As QGis is able to reach table comment, I believe it should also retrieve materialized views comments.</p> <p>To do this, QGis should also query the ALL_MVIEW_COMMENTS table to get this information from Oracle.</p> <p>I hope there will be not too much code modification to handle this case. Thanks for fixing this...</p>
