QGIS Application - Bug report #10085 Last feature change is not saved in form mode

2014-04-17 05:15 AM - Julien Perrot

Status: Closed Priority: High

Assignee: Matthias Kuhn
Category: Attribute table

Affected QGIS version:2.2.0Regression?:NoOperating System:Easy fix?:No

Pull Request or Patch supplied: Resolution:

Crashes QGIS or corrupts data: Copied to github as #: 18553

Description

When editing a layer through the attribute table, in "form mode" (I use drag and drop designed forms), the last feature I am editing is not saved when I push the save button or if I change editing status (the pen button). However it works when I first choose another feature before saving, or if I close the attribute table before saving.
