

# QGIS Application - Feature request #10180

## Show child relations in identify window

2014-05-05 03:10 AM - Nyal Dawson

<b>Status:</b> Open	
<b>Priority:</b> Normal	
<b>Assignee:</b>	
<b>Category:</b> Unknown	
<b>Pull Request or Patch Supplied:</b>	<b>Resolution:</b>
<b>Easy fix?:</b> No	<b>Copied to github as #:</b> 18634
<b>Description</b>	
It would be nice to see the child features from a relation in the identify results panel. There could be a new group under each identified feature for each relation set up for the layer, and expanding the group shows all matching child features.	

### History

#### #1 - 2014-06-24 05:14 AM - Paolo Cavallini

- Status changed from Open to Feedback

Isn't it fixed already?

#### #2 - 2014-07-28 09:29 AM - Matthias Kuhn

- Status changed from Feedback to Open

It's not yet implemented.

But it would be a nice feature.

#### #3 - 2017-05-01 12:48 AM - Giovanni Manghi

- Easy fix? set to No
