QGIS Application - Bug report #10198
mapserver does not update when project file changes

2014-05-07 04:25 AM - Vincent Mora

Status:	Closed			
Priority:	Normal			
Assignee:	Vincent Mora			
Category:	QGIS Server			
Affected QGIS version:	master	**Regression?:**	No	
Operating System:		**Easy fix?:**	No	
Pull Request or Patch supplied:	Yes	**Resolution:**	fixed/implemented	
Crashes QGIS or corrupts data:	Yes	**Copied to github as #:**	18647	

Description

The cache should be updated thanks to QFileSystemWatcher in QgsConfigCache, but processEvents() is never called in the main loop.

Once processEvents() is added, there is a crash when updating the project and submitting another wms GetPrint request because QgsMapLayerRegistry is not cleaned up between calls.

Adding QgsMapLayerRegistry::instance()->removeAllMapLayers() in the loop solves that.

I'll submit a PR today.
