QGIS Application - Bug report #1020
Export layers in proper order for MapServer

2008-03-30 08:35 AM - Gary Sherman

Status:	Closed			
Priority:	Low			
Assignee:	Gary Sherman			
Category:				
Affected QGIS version:		**Regression?:**	No	
Operating System:	All	**Easy fix?:**	No	
Pull Request or Patch supplied:		**Resolution:**	fixed	
Crashes QGIS or corrupts data:		**Copied to github as #:**	11080	

Description

MapServer export writes the layers in the same order as they are found in the QGIS legend. This is "upside down" for MapServer.

Work is underway to correct this problem.

History

#1 - 2008-03-30 08:50 AM - Jürgen Fischer

mapserver export also puts and empty FILTER statement into postgres layers. Please skip FILTER, when the sql statement is empty.

#2 - 2008-04-10 08:30 PM - Gary Sherman

- Resolution set to fixed

- Status changed from Open to Closed
