

QGIS Application - Feature request #10203

Match labels to values

2014-05-07 12:57 PM - Simon Dedman

Status: Closed	
Priority: Low	
Assignee:	
Category: GUI	
Pull Request or Patch supplied:	Resolution:
Easy fix?: No	Copied to github as #: 18649
Description	
<p>In layer properties > style, for categorised or graduated (and maybe other) style types, if the user manually edits the value bins for e.g. graduated, the labels have to be manually changed also. Would it be possible to have a tick box option called "match labels to values" which would grey out the labels column and automatically update the labels when the values are changed?</p> <p>Would tie in nicely with "this":#5963 feature also.</p>
