

QGIS Application - Feature request #10213

Snapping option - Add Spinner to Tolerance

2014-05-08 08:03 AM - Antonio Locandro

Status:	Feedback	Resolution: Copied to github as #: 18659
Priority:	Normal	
Assignee:		
Category:	Digitising	
Pull Request or Patch supplied:		
Easy fix?:	No	
Description		
It would be nice to have a spinner for the Tolerance so I can set the desired tolerance with my mouse, Also I think the default 6 decimal precision is excessive so maybe having 0.00 and spinner work in 1 increments? like		
0.00		
1.00		
2.00		
3.00		

History

- Description updated

#5 - 2018-03-19 05:25 PM - Antonio Locandro

Spinner added, but now it seems it only works with integers. Can't set 12.5 for example.
