QGIS Application - Feature request #10242
Join Attribute Table algorithm: add support to join geometryless tables

2014-05-12 02:54 PM - Antonio Locandro

Status:	Closed			
Priority:	Normal			
Assignee:	Victor Olaya			
Category:	Processing/QGIS			
Pull Request or Patch supplied:	No		**Resolution:**	worksforme
Easy fix?:	No		**Copied to github as #:**	18680

Description

Is there a way to be able to use CSV files as provider, currently it only accepts vector layers, I couldn't find a way to do it. I could add a Table with the input and a Table Field but no way of using it in the Join Attribute Table algorithm
