

QGIS Application - Feature request #10282

Action widget in drag and drop form

2014-05-16 03:00 AM - Andreas Neumann

Status:	Open	Resolution: Copied to github as #: 18711
Priority:	Normal	
Assignee:		
Category:	GUI	
Pull Request or Patch supplied:	Yes	
Easy fix?:	No	
Description		
It should be possible to include a button into a drag and drop form that starts an action assigned to the layer.		

History

#1 - 2014-05-16 06:15 AM - Matthias Kuhn

Should apply to any form, not only drag and drop

#2 - 2017-05-01 12:48 AM - Giovanni Manghi

- Easy fix? set to No
