

## QGIS Application - Bug report #10345

### New field calculator bar does not refresh values after update

2014-05-25 08:11 AM - Alexandre Neto

<b>Status:</b> Closed	
<b>Priority:</b> Normal	
<b>Assignee:</b> Nathan Woodrow	
<b>Category:</b> Attribute table	
<b>Affected QGIS version:</b> master	<b>Regression?:</b> No
<b>Operating System:</b> Ubuntu 12.10	<b>Easy fix?:</b> No
<b>Pull Request or Patch supplied:</b> No	<b>Resolution:</b>
<b>Crashes QGIS or corrupts data:</b> No	<b>Copied to github as #:</b> 18766
<b>Description</b>	
<p>Using the new field calculator bar, I have noticed that the values are not refreshed unless you scroll the attribute table down.</p> <p>When you press the update button, nothing seems to have happen, making the user press more than once.</p> <p>As soon as you scroll it, the values are updated</p>

#### History

##### #1 - 2014-05-25 09:59 AM - Matthias Kuhn

Sounds more like an attribute table / layer cache problem than related to the expression bar. This does not need to do anything but updating and if you say that works, the problem is somewhere else.
