Fix #10366 (geometry functions not working in rule test)

History

#1 - 2014-05-27 04:03 AM - Saber Razmjooei

I used $area of the geometry as a part of my expression.

The Count for each rule also report 0.

It works fine with field expression.

the first part of the problem which was related to Test works fine. But the feature count still shows 0 features. It might be related to #5768
