Status: Closed	
Priority: Severe/Regression	
Assignee: Marco Hugentobler	
Category: QGIS Server	
Affected QGIS version: master	Regression?: No
Operating System:	Easy fix?: No
Pull Request or Patch supplied: No	Resolution: fixed/implemented
Crashes QGIS or corrupts data: No	Copied to github as #: 18791

Description

Hi,

I discovered that QGIS Server doesn't put the SERVICE section in the GetCapabilities on WMS, as it did in QGIS 2.0 (sorry I have only this version to compare).

The consequence of this is that Qgis Web Client can't run with this version of QGIS.
