

QGIS Application - Bug report #10412

New layers are displayed when added when not told to.

2014-06-02 02:03 AM - Casper Børgesen

Status:	Closed	
Priority:	Severe/Regression	
Assignee:		
Category:	Map Legend	
Affected QGIS version:	master	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:		Resolution:
Crashes QGIS or corrupts data:		Copied to github as #: 18828
Description		
<p>I have just installed the QGIS 2.3 master (x64) - frozen? Code revision d652a80.</p> <p>When I add a new layer to the map it is displayed immediately. In Settings/Rendering/Rendering Behaviour, I have no check mark in "By default new layers added to the map should be displayed".</p> <p>I would expect newly added layers not to be drawn.</p>
