

QGIS Application - Bug report #10429

No python support on latest nightly build on Ubuntu

2014-06-03 05:46 AM - Giovanni Manghi

Status:	Closed	
Priority:	Severe/Regression	
Assignee:		
Category:	Build/Install	
Affected QGIS version:	master	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:		Resolution: fixed/implemented
Crashes QGIS or corrupts data:		Copied to github as #: 18843
Description		
<p>Just updated QGIS master on Ubuntu 12.04/14.04 using the nightly build repo, and on launch it gives</p> <p>Couldn't load PyQGIS. Python support will be disabled.</p> <p>Traceback (most recent call last): File "", line 1, in File "/usr/lib/python2.7/dist-packages/qgis/__init__.py", line 36, in from qgis.core import QgsFeature, QgsGeometry File "/usr/lib/python2.7/dist-packages/qgis/core/__init__.py", line 1, in from qgis._core import * ImportError: /usr/lib/python2.7/dist-packages/qgis/_core.so: undefined symbol: _ZN15QgsComposerItem13updatePagePosEdd</p>		

History

I can't confirm this. Startup of todays build on Ubuntu 14.04 gives me this message:

Warning: loading of qt translation failed [/usr/share/qt4/translations/qt_en_US]
Warning: QGraphicsScene::addItem: item has already been added to this scene
Warning: void DBusMenuExporterPrivate::addAction(QAction*, int): Already tracking action "Toolbox" under id 236

But the program works fine for me. Maybe reinstall PyQGIS package?

But the program works fine for me. Maybe reinstall PyQGIS package?

do you use the nightly build repo on top of the ubuntuGIS one?

#3 - 2014-06-04 12:43 AM - Tobias Schneider

I currently have "qgis 2.3.0+git20140603+9c5c257~trusty1" from "http://qgis.org/debian-nightly". But I don't remember my exact install history.

"http://qgis.org/debian-nightly".

this is the nightly build repo that does not use the ubuntuGIS packages. I have anyway tested also this one and I'm getting the same issue.

#5 - 2014-06-05 04:09 AM - Giovanni Manghi

does not happen if I self compile QGIS.

Did you remove all qgis and ubuntuGIS packages before installing from the plain nightly repository?

#7 - 2014-06-05 04:34 PM - Giovanni Manghi

Did you remove all qgis and ubuntuGIS packages before installing from the plain nightly repository?

yes

- Status changed from Open to Feedback

Not reproducible with either 2.3.0+git20140606+ade4c7b~precise1 (12.04) or 2.3.0+git20140606+ade4c7b~trusty1 (14.04).

```
# COLUMNS=250 dpkg -l "**qgis*"
Desired=Unknown/Install/Remove/Purge/Hold
```
