QGIS Application - Bug report #10444
Output file extension in batch mode

2014-06-03 02:48 PM - Pedro Venâncio

Status:	Closed			
Priority:	Normal			
Assignee:	Victor Olaya			
Category:	Processing/Core			
Affected QGIS version:	master	**Regression?:**	No	
Operating System:		**Easy fix?:**	No	
Pull Request or Patch supplied:	No	**Resolution:**		
Crashes QGIS or corrupts data:	No	**Copied to github as #:**	18856	

Description

When we give the name to the output file of the various algorithms executed in normal mode, Processing adds the extension, automatically.

Running the same algorithms, but in batch mode, the extension is not appended.

- Status changed from Open to Feedback

Just tried with a few algorithms, and it seems to add the extension. It works fine with any of the autofill options.

Please confirm that this is still an issue or we should close the ticket

Hi Victor,

I compiled QGIS master and tested and this is still true. Please see the screencast:

https://dl.dropboxusercontent.com/u/5772257/qgis/batch_extension.ogv

My Processing version is 2.10.99. I'm testing in Linux.

Thanks Victor
