Crashes QGIS or corrupts data:	Copied to github as #: 11107

Description

SVN trunk r8368.

Help > Check QGIS version:

There is a new version of QGIS available
The Development Version Contains New Features Since Version 0.9.1

Would you like more information?

I don't understand the message. It suggests I'm using 0.9.1. But I'm not - Help > About says it's 0.10.0 - lo.

History

Now I'm using 0.11 from SVN trunk .

Help > Check QGIS version:

There is a new version of QGIS available
The Development Version Contains No New Features Since Version 0.10.0

Would you like more information?

Click OK:

No new features are available. Check back later.

I don't get it. I'm using 0.11 and there are new features compared to 0.10.
