| <b>Description</b>   |                                     |
| Raster icons in the layers panel (legend) is no longer showing in master 2.3.  |                                     |
| Checking "Settings > Options > Canvas & Legend > Create raster icons does not change (may be slow)" box does not work. |                                     |
