| <b>Description</b>  |                                     |
| <p>tested on shapes and postgis joined to a csv table.</p> <p>Removing the join does not make the tool work again.</p> <p>I assume is a regression because I can't recall seeing this on a stable release, anyway I can be wrong and I cannot do further tests right now.</p> |                                     |
