

QGIS Application - Feature request #10529

Color ramp naming vrs Color ramp itself

2014-06-10 08:32 AM - Antonio Locandro

Status:	Open	Resolution: Copied to github as #: 18939
Priority:	Normal	
Assignee:		
Category:	Symbology	
Pull Request or Patch supplied:		
Easy fix?:	No	
Description		
<p>Currently Color ramp shows the preview of it plus a short description which I think helps in no way, I propose dropping the short abbreviated description and extending the color ramp to stretch the whole width so I can see clearer the ramp. If the abbreviated description is needed for some other reason maybe a tooltip or a right click would provide the name of the color ramp</p>		

History

#1 - 2014-06-24 05:13 AM - Paolo Cavallini

- Category set to Symbology

#2 - 2017-05-01 12:47 AM - Giovanni Manghi

- Easy fix? set to No

#3 - 2018-03-19 06:58 PM - Antonio Locandro

- File qgis_0001.png added

Tested in latest version, behaviour remains. Would be nice if the color ramp preview can be extended

#4 - 2018-09-22 06:01 AM - Harrissou Santanna

Would be nice if the color ramp preview can be extended

Agreed. It would help more to preview the ramp.
