<b>Pull Request or Patch supplied:</b> No	<b>Resolution:</b> fixed/implemented
<b>Crashes QGIS or corrupts data:</b> No	<b>Copied to github as #:</b> 18995
<b>Description</b>	
<p>Hi,</p> <p>I set a legend using categorized rendering, and map-unit. I set a huge dimension 200px for map-unit to see it visible at a low scale.</p> <p>The legend is well created on qgis desktop, instead in qgis-server is really wrong.</p> <p>This is the result on qgis-server:</p> <p><a href="http://www502.regione.toscana.it/geoscopio_gg/cgi-bin/qgis_mapserv?map=continuum_geologico_rt.qgs&amp;#38;SERVICE=WMS&amp;#38;request=GetLegendGraphic&amp;#38;version=1.1.1&amp;#38;format=image/png&amp;#38;sld_version=1.1.0&amp;#38;width=23&amp;#38;height=15&amp;#38;layer=frane100k&amp;#38;style=default&amp;#38;legend_options=fontName:Verdana;fontSize:10">http://www502.regione.toscana.it/geoscopio_gg/cgi-bin/qgis_mapserv?map=continuum_geologico_rt.qgs&amp;#38;SERVICE=WMS&amp;#38;request=GetLegendGraphic&amp;#38;version=1.1.1&amp;#38;format=image/png&amp;#38;sld_version=1.1.0&amp;#38;width=23&amp;#38;height=15&amp;#38;layer=frane100k&amp;#38;style=default&amp;#38;legend_options=fontName:Verdana;fontSize:10</a></p> <p>I attach also the qml used for this result. The qgis is from the master, 2 day old.</p>	

### History

**#1 - 2014-06-14 01:16 PM - aperi2007 -**

- File sample.zip added

forgot the qml.

**#2 - 2014-10-24 01:19 AM - Martin Dobias**

- Resolution set to fixed/implemented

- Status changed from Open to Closed

I believe this is now fixed in master after reworking of qgis server legend with new QgsLegendRenderer. Please reopen if not.
