fix renaming of db/http connections (fixes #10632)

(cherry picked from commit 5bf316fec6ab3b727e7ed4c97cda2c6cfc52f623)

#### History

##### #1 - 2014-06-18 10:45 AM - Antonio Locandro

I don't know if related but I wanted to change users and connection details and would not work unless delete connection and re add, seems it is not updating the details somewhere

##### #2 - 2014-06-21 08:53 AM - Jürgen Fischer

- Priority changed from Low to Normal
- Status changed from Open to Feedback

Just tried with a postgres - seems to work fine in "Add PostGIS Table(s)" dialog and in the browser.

##### #3 - 2014-06-21 08:53 AM - Jürgen Fischer

- Category set to GUI

##### #4 - 2014-06-21 09:28 AM - dr -

Tried in last master (Ubuntu 12.04):

1. Press "Add PostGIS Layers" button;

2. Choose connection from list, "vega" in my case;
3. Press "Edit" button and rename "vega" to "Vega";
4. Dialog window appears "Should the existing connection Vega be overwritten?". It is not clear why "Vega" treated as existing connection while "vega" connection exists.
5. Press OK, name of connection is not changed.

**#5 - 2014-06-21 02:23 PM - Maxim Dubinin**

I can confirm on Ubuntu 13.04 and latest master, tried to add PostGIS connection, changing case of the name doesn't have any effect.

Works fine on Win 7.
