

QGIS Application - Bug report #10666

Accented characters in FileParameter

2014-06-21 01:21 AM - Etienne Trimaille

Status: Closed	
Priority: Low	
Assignee: Victor Olaya	
Category: Processing/Core	
Affected QGIS version: master	Regression?: No
Operating System:	Easy fix?: No
Pull Request or Patch supplied: No	Resolution:
Crashes QGIS or corrupts data: No	Copied to github as #: 19065

Description

I get this error while trying to enter a path with some accented characters in a FileParameter :

Traceback (most recent call last):

```
File "/home/etienne/.qgis2/python/plugins/processing/gui/AlgorithmExecutionDialog.py", line 225, in accept
self.setParamValues()
File "/home/etienne/.qgis2/python/plugins/processing/gui/AlgorithmExecutionDialog.py", line 151, in setParamValues
self.paramTable.valueItems[param.name]):
File "/home/etienne/.qgis2/python/plugins/processing/gui/AlgorithmExecutionDialog.py", line 210, in setParamValue
return param.setValue(widget.getValue())
File "/home/etienne/.qgis2/python/plugins/processing/parameters/ParameterFile.py", line 48, in setValue
self.value = str(obj)
UnicodeEncodeError: 'ascii' codec can't encode character u'\xe9' in position 15: ordinal not in range(128)
```

- Status changed from Open to Feedback

are you using qgis master? if yes please also check that you don't have a "processing" folder in .qgis2/python/plugins

#2 - 2014-06-26 06:09 AM - Etienne Trimaille

- Status changed from Feedback to Closed

You're right, I was running qgis master with a processing folder in ".qgis2/python/plugins".

I renamed the folder, so it works now with "/home/etienne/apps/share/qgis/python/plugins/processing"
